

PROGRAM DESCRIPTION:

The purpose of this webinar is to assist nurses with preparing for the medical-surgical certification exam and/or to provide a comprehensive review of medical-surgical nursing. Content will be presented utilizing lecture, case studies, sample questions and discussion.

PROGRAM OBJECTIVES:

On completion of this program, participants will be able to:

- Analyze underlying etiologies of disruptions in physiologic homeostasis
- Discuss the anatomy and physiology of each body system
- Discuss common disorders of each body system, treatment modalities and nursing interventions
- Explore legal and ethical implications of professional nursing issues and concerns
- Utilize test-taking strategies

TARGET AUDIENCE:

Licensed nurses or nursing students looking to review their skills or planning to take the medical surgical certification exam.

INSTRUCTOR:

Pam Collins, MSN, RN, CMSRN, MEDSURG-BC, NP-BC is a consultant, educator, coach/mentor, and nurse entrepreneur. Pam's 40 years of varied nursing experiences include expertise in administration/leadership, nursing professional development, educator, and the legal aspects of nursing practice/ documentation. She is a published author in nursing journals, textbooks, and most recently published a medical-surgical certification review book. Pam presents nationally on clinical, leadership and legal topics and is known for her ability to engage the audience. [Click here for full BIO].
